PROFESSIONAL SUMMARY

Data Analyst and Full-Stack Web Developer with 9+ years of total experience, including 2.5+ years in data analytics and business intelligence. Skilled in data visualization, ETL pipeline development, automated reporting, and interactive dashboarding using Python, SQL, Power BI, and Tableau. Experienced in building scalable web applications and internal tools using Django, MERN stack, React.js, and RESTful APIs. Proven ability to reduce manual processes by up to 60% and enhance data-driven decision-making. Seeking opportunities in data engineering, analytics, or full-stack development roles.

EXPERIENCE & PROJECTS

Data Analyst & Full-Stack Web Developer

Get Set Business Solutions Pvt. Ltd. – Noida | Apr 2024 – Present

- Initially hired as a Data Analyst, led data-driven initiatives that improved reporting efficiency by 35% and supported strategic decision-making through custom dashboards and predictive models.
- Promoted in June 2025 to a hybrid role, combining data analysis with full stack web development; developed internal web applications that reduced manual processes by 50% and enhanced team productivity.
- Collaborated cross-functionally to integrate APIs, automate ETL pipelines, and modernize legacy tools using technologies such as Python, SQL, React, and Node.js.

Operations Coordinator / Data Analyst

G.G.J. Power Solutions – Gurugram | Apr 2023 – Mar 2024

- Automated reporting workflows with Python, SQL + Excel macros (60% time saved)
- Created interactive Power BI/Tableau dashboards for KPI tracking
- Optimized data operations, saving 10+ hours/week; enhanced team decisions by 25%

Accounts & Admin Executive

SharpX Renewableenergy Key – Noida | Jan 2020 – Mar 2023

- Handled bookkeeping, invoicing, and HR records with 100% data accuracy
- Streamlined admin operations, improving the procurement cycle by 15%

Data Entry Specialist

Various Orgs – Greater Noida | Sep 2016 – Dec 2019

- Achieved 99.9% data accuracy in high-volume entry and audit cycles

TECHNICAL SKILLS

Languages/Frameworks: Python, R, JavaScript, SQL, Django, MERN, Flask

Tools & Libraries: Pandas, NumPy, Power BI, Tableau, Matplotlib, Seaborn, Excel (Advanced), Plotly, Tkinter, Faker

Frontend: HTML, CSS, Tailwind CSS, Bootstrap, React.js

Databases: MySQL, SQLite, MongoDB, PostgreSQL

Dev Tools: Git/GitHub, Jupyter Notebook / Lab, VS Code, Linux

PROJECT HIGHLIGHTS

- Global Sales Analysis (Pandas, Plotly):** Analyzed 51k+ records; found \$64K loss in tables vs \$1.7M phone sales.
- D&I Power BI Dashboard:** Helped HR with DEI decisions for \$5M+ workforce planning.
- Coffee Shop Dashboard (Tableau):** Discovered \$600K+ revenue patterns; influenced product strategy.
- Employee DB App (Tkinter + MySQL):** Role-based HR tool with auto password gen & 30% fewer edit errors.
- HR Analytics (Python + MySQL):** Solved 10 HR business questions using custom-generated (5000 Employees) data and Plotly visuals.
- Realistic Dataset Generator (Django + Faker):** Currently building a full-stack tool with location-aware logic for names, demographics, and business scenarios.
- Portfolio Web App (Django, JS, SQLite):** Developed and launched a full-stack, responsive portfolio featuring theme toggling and a contact form with SQLite backend.

CERTIFICATIONS & EDUCATION

- B.C.A. – SunRise University, Alwar (2013–2016)**
- Microsoft + LinkedIn:** Career Essentials in Data Analysis
- Microsoft + LinkedIn:** Career Essentials in Software Development
- PwC, Tata, Accenture (Forage):** Analysis, BI & Visualization Simulations
